In his groundbreaking book, *One Truth, One Law, Am Create*, Dr. David Hawkins reveals the secrets of the universe and empowers you to become a conscious creator of your own reality.

## The One Truth

The one truth that Dr. Hawkins reveals is that everything in the universe is made of energy. This energy is constantly vibrating, and the frequency of its vibration determines its form.

For example, the energy of a rock vibrates at a very low frequency, while the energy of a human being vibrates at a much higher frequency. This is why rocks are solid and human beings are not.

The one truth also tells us that we are all connected to each other and to the universe as a whole. We are all part of a vast web of energy, and our thoughts, words, and actions have a ripple effect that can impact the entire universe.

## **The One Law**

The one law that governs all of creation is the law of vibration. This law states that like attracts like. In other words, whatever you focus on, you will attract more of into your life.

For example, if you focus on positive things, you will attract more positive things into your life. If you focus on negative things, you will attract more negative things into your life.

The law of vibration is a powerful tool that you can use to create the life you desire. By focusing on your desires and visualizing them as already being real, you can attract them into your life.

## **Am Create**

The phrase "Am Create" is a mantra that Dr. Hawkins teaches in his book. This mantra reminds us that we are all creators and that we have the power to create the life we desire.

When you say "Am Create," you are affirming your power to create. You are reminding yourself that you are not a victim of your circumstances and

that you have the ability to shape your own reality.
