As they struggled to establish their settlement in the face of harsh conditions and unfamiliar terrain, the Pilgrims found themselves dependent on the help of the native Wampanoag people. Guided by Squanto, a Wampanoag interpreter who had previously been kidnapped and taken to Europe, the Pilgrims learned invaluable survival skills, including how to cultivate the land, build shelter, and navigate the unfamiliar wilderness.

Squanto's guidance played a crucial role in the Pilgrims' survival in the New World.

In the autumn of 1621, after a successful harvest and a period of relative peace between the Pilgrims and the Wampanoag, Governor William Bradford organized a feast as a token of gratitude for their newfound blessings. This gathering, which became known as the first Thanksgiving, was a time for both celebration and reconciliation.
